The Speaker laid before the House, the following communication, received from his Excellency the Governor, by his Private Secretary.

To the Honorable the General Assembly of North Carolina.

Gentlemen, I herewith transmit the statement of my private Secretary, showing a list and the amount of the articles purchased for the use of the Government House.

You will perceive from the bills, accompanying the statement that most of the articles were purchased in one of the northern cities for cash, and without any other charge than the cost and charges for transportation.

Believing that economy was desirable, I adopted this plan of procuring for the State such articles as I thought should be purchased at the smallest expense. A portion of them were bought when the exchanges were considerably against us, but having specie funds of my own in Philadelphia, I permitted them to be used in the purchase without any charge to the State for the difference in the exchange.

Besides the articles contained in this list, I have been under the necessity of moving a portion of my own furniture for the convenience of the house, and the accommodation of my family.

The list of articles made out of the piece goods purchased in Philadelphia for furniture, is here with filed, shewing into what kind of furniture they have been made.

The sum paid for the articles contained in the list of my secretary, exceeds the appropriation of \$1000 by the sum of \$61.54. This balance may be discharged by taking from the list such articles as may balance the account, or by appropriating a sum to pay it.

Besides the articles contained in the list and such as I had among my own furniture; I purchased for the use of the house other furniture; but as this exceeds the appropriation, they are not included in the list.

Respectfully yours,

J. M. MOREHEAD.
